An opportunity not to be missed! This Sfakia-Gavdos day trip to and around the southernmost island of both Greece and Europe starts in the port of Chora Sfakion and includes spending time on 3 or 4 remote beaches of stunning natural beauty on the island of Gavdos. Our first lunch stop is at the remote beach of Potamos, well known for its clay (natural spa!), then Tripiti where we walk up to the giant chair atop the cliff at the southernmost point of Europe. We continued to Karave for lunch before ending with a swim at Agios Ioannis beach, voted the 2nd best beach in the world! If we're lucky, we might see dolphins on the way! The island of Gavdos is situated 24 nm. away from the coast and offers some of the most remote landscapes in West Crete. As the island has been slightly "forgotten in time" the hospitality of the locals and the purity of nature is a quality to be cherished by each visitor. Our full day Sfakia- Gavdos island boat trip offers you a unique experience on board and on the island!
